

Partner Brand Guidelines

V. 1.3

These brand guidelines are intended to help all Firstbeat distributors, partners and Service Providers make better use of our brand and materials, adding value to your offering.

We encourage to use our logo and materials in promoting the Firstbeat solutions.

When it comes to health and performance, we want to help people to be at their best. Our story began 20 years ago, when our founders combined physiological science with mathematics to understand the language that our heart tells us. They wanted to discover how this knowledge could help people to reach their life aspirations.

A breakthrough in a Finnish sports-sciences research lab revealed how heart rate variability (HRV) could be used to translate human physiology into a mathematical model. Research enabled us to create a window into our inner body functions, allowing us to map stress, recovery, and exercise performance. The innovative use of HRV evolved into the advanced performance analytics that Firstbeat provides today. This is how the science of human physiology stepped out of the labs and into everyday life.

We work ambitiously towards providing ever-better means for people to learn more about themselves.

Today more than a thousand professional sports teams, millions of consumers, and employees in over 40 countries use Firstbeat analytics. We provide each of them with the science-backed confidence to help them reach their health and performance potential.

We're all individuals, and what works for some, might not work for everyone. The answer has to come from within. With the right science backing you up, you can make confident choices.

You have it in you.

1 / INTRODUCTION TO OUR BRAND

Getting the most out of life is a balancing act. You have to know when it is time to push yourself harder, to strive further, and when to slow down and take a breath. We're all individuals, and what works for some, might not work for everyone. The answer has to come from within.

Let your heart set the pace. Invigorating bursts of energy, restoring breaks and stress-fuelled moments are all mirrored in its beat, in a language Firstbeat understands. Our leading physiologists have created a science-driven approach that combines data with an understanding of how people live, perform and recover.

With the right science backing you up, you make confident choices that help you reach your health and performance aspirations, to live, work and train better.

You have it in you.

2 / LOGO

These instructions were created to ensure the unified use of the Firstbeat logo across all brand communication. Logo files provided should be used as it is i.e. it is not allowed to modify the company name contained in the artwork, change the colors or design of the artwork, or otherwise modify the artwork in any way.

The full color logo is in red and black. The preferred way to use it is over a white background. This combination should be used whenever possible.

**Firstbeat Red**
